

Collaboration with Vital Städ

We have partnered with the cleaning company Vital Städ. The cooperation has been developed to help our tenants when moving out. If you hire Vital Städ you will be guaranteed a properly cleaned apartment that will be approved in the cleaning inspection.

RUT deductions

RUT deductions can be used, which means that the cleaning is done at a favorable price. RUT deductions may be used provided that the customer of the cleaning service has a Swedish social security number and is registered at the address. Please note that you will not receive the RUT deduction from the Swedish Tax Agency, but the RUT deduction will be deducted from the tax paid during the year. If you have not paid enough tax, there will be no deductions. Please visit the Swedish Tax Agency's webpage to see if you are entitled to RUT deductions. For further information regarding prices and booking, please contact Vital Städ at (+46)31- 762 44 22 or info@vital.se. On their webpage, you can find more information: <http://www.vitalstad.se>

How does it work?

If you hire Vital Städ, please keep in mind that you need to book them so that cleaning is done before the deadline is to hand in the keys. The deadline to hand in the keys is by 10 o'clock on the expiration date, that is, the date on which your contract expires. If you hire Vital Städ, the keys must be handed to the reception at Chalmers Studentbostäder where Vital Städ will pick them up. Keep in mind that the apartment should be emptied, and the freezer defrosted before Vital Städ comes there and cleans.
